

## **Honors Engineering Final Project Report – Final Exam Grade**

Please answer each question in detail. 3 points each.

1. What was the name of your project?
2. How did you decide what to build?
3. Describe what it does and how this shows off your engineering skills.
4. What difficulties did you face when working on your project?
5. Describe how you overcame at least one of those difficulties.
6. Give your opinion on this question: Is choosing your own groups better, or is it better to be assigned randomly?
7. Give me your opinion on how I could improve this class for the future:
